- Sign up to the system and become a **developer**.

Task 18: Operations by **developers** on user accounts:

- Update their profiles.

Task 19: Operations by any principals on **training modules**:

- List the **training modules** in the system that are published.
- Show the details of the **training modules** that they can list (excluding their **training sessions**).

Task 20: Produce an analysis report.

Task 21: Produce a planning and progress report.

Task 22: Produce a lint report.

3. Capturas de Pantalla

The screenshot displays a Jira board for the project '@luchersol's Delivery 2'. The board is organized into three columns: 'Todo' (2 items), 'In Progress' (3/5 items), and 'Done' (34 items). Each column has a header with a status icon, a count, and an 'Estimate: 0' label. Below the headers, tasks are listed as cards. The 'Todo' column contains 'Task25-G' and 'Task24-G'. The 'In Progress' column contains 'Task22-G', 'Task8-G', and 'Task23-G'. The 'Done' column contains 'Task5-G', 'Task21-G', 'Task3-G', 'Task 2 E3', and 'Task 13 E3'. A filter bar at the top allows filtering by keyword or by field. A '+ New view' button is located in the top right corner.

Column	Item	Estimate
Todo (2)	Acme-SF-D02-24.1 #94 Task25-G	0

5. Lista de registros

Para esta entrega no realicé ningún registro.

6. Conflictos surgidos

- Tuve problemas con el dashboard que no sabia porque no me salian las querys
- Al principio no entendía que era el draft mode pero investigando en AcmeJob supe cómo resolverlo.
- Tuve problemas viendo risk a ver que se podía editar más de un administrador un mismo riesgo.

7. Comparación de costes estimados / reales

En la comparación de costes estimados y reales, se observa que en varias tareas, el coste real supera al estimado. Esto fue provocado por diversos factores como la complejidad real de la tarea, imprevistos durante la implementación y cambios en los requisitos. Se evaluarán las discrepancias para mejorar las estimaciones futuras.
